## YACHT RIGGERS

## THL Rope Bags

THL have recently designed the THL rope bag – specifically to hold rope weighing up to 23kg. The bags are easy to carry and very sturdy. One bag was tested for three months by members of the THL rigging team, on and off planes, kicked around the shipyard and filled to its limit. It did not split or tear and the handy Velcro belt kept the zip from being under too much pressure. In fact the bags have proved so successful we have been asked to sell them for crew use as they are the perfect size to hold complete sets of wet weather gear, a week's worth of clothing, diving gear, or any number of other kit carrying requirements!

Please contact Sally on +44 01590 676644 or [sally@timhaynes.com](mailto:sally@timhaynes.com) to place your order.

Size: 720mm (l) x 300mm (d) x 360mm (h)

One outside document pocket

One Velcro belt
